

## Tricks and Tips

<b>Before the power outage</b>
<ul style="list-style-type: none"><li>▪ Unplug your devices from the mains (IT, multimedia, entertainment devices, telephones, etc.).</li></ul>
<ul style="list-style-type: none"><li>▪ Open your electric garage door in advance.</li></ul>
<ul style="list-style-type: none"><li>▪ Do not use the lift shortly before the planned power outage. Alternatively, block access to the lift before the power outage.</li></ul>
<ul style="list-style-type: none"><li>▪ Unplug any devices that generate energy, such as generators or solar panels.</li></ul>
<ul style="list-style-type: none"><li>▪ Inform older residents and children about the power outage.</li></ul>
<b>During the power outage</b>
<ul style="list-style-type: none"><li>▪ Switch off stoves, irons, drills, circular saws, vacuum cleaners, modems, sound systems, PCs, TVs etc. These devices will automatically switch on when the electricity is turned back on.</li></ul>
<ul style="list-style-type: none"><li>▪ Lamps can remain switched on and there should be no issues when the power is turned back on.</li></ul>
<ul style="list-style-type: none"><li>▪ To prevent cold escaping from the fridge or freezer, avoid opening these during the power outage.</li></ul>
<ul style="list-style-type: none"><li>▪ The landline works for a maximum of four hours without electricity. Devices that connect to the mains power supply will not work.</li></ul>
<b>After the electricity is turned back on</b>
<ul style="list-style-type: none"><li>▪ Please check your settings for aquariums, clocks, radio alarm clocks, telephones, heating, fridge/freezers, ovens etc.; these may need to be reprogrammed.</li></ul>
