Connection
Once you're connected to the lake heat network, we supply you with 100 per cent renewable energy for generating hot water and for heating and cooling.

Preparing for the connection
We lay a supply line into your properties, at a one-off cost and with no further obligation. We do not begin supplying energy until the time of your choosing. That could be when you replace your heating or cooling system, for instance.

Subsidies
Please remember it is your responsibility to apply for funding for your connection to the district heating network. Funding always goes to the owner(s) of the property.

Calculation example: connection to heating supply

1,000 kW	273,191	131,191

The one-off connection fee applies when a contract is signed up to a year before construction of the main supply lines begins.

If the contract is signed less than a year before construction begins, an additional flat fee of CHF 8,000 is charged.
If the contract is signed after construction begins, the connection price is determined based on the costs incurred. However, at least the connection price and the additional flat fee of CHF 8,000 will be charged.

A connected load of at least 15 kW is required.
