Altstetten and Höngg energy network
Pricing

06.2026 MM

Connection
With a connection to the energy network, we supply you with 75 or 100 per cent renewable energy for heating and hot water production.

Preparing for the connection
We lay a supply line into your properties – at a one-off cost and with no further obligation. The energy supply doesn't begin until a time of your choosing, such as when you replace your heating system.

Subsidies
Please remember it is your responsibility to apply for funding for your connection to the district heating network. Funding always goes to the owner(s) of the property.

Example calculation

Assumptions	
Connected load	300 kW
Energy consumption per year	600,000 kWh
Number of homes	70
Connection fee	CHF 114,278
Base price	CHF 45,300 per year
Price for heating	CHF 63,000 per year
Energy price, total (without taking the one-off connection fee into account)	**CHF 0.181 per kWh**
Costs per home	CHF 1,548 per year CHF 129 per month
Proportion of renewable energy	75%

Outlook for the introduction of uniform district heating fees
By merging all public thermal grids with ewz, the aim is to create a uniform fee model – regardless of area and energy source. The basis for the new model is currently undergoing parliamentary discussion in the City Parliament. As a result, the fees for this supply area could tend to be lower in the future than they are today. Once the fees have been set (expected to apply from 2029), you will be notified in good time and can decide whether you would like to switch to the new fee model.

Connected load	Connection fee Heating in CHF	Connection fee Cooling in CHF
<50 kW	Price on request	Price on request
50 kW	43,913	Price on request
75 kW	52,673	Price on request
100 kW	60,698	Price on request
150 kW	75,428	Price on request
200 kW	89,045	Price on request
250 kW	101,928	Price on request
300 kW	114,278	Price on request
350 kW	126,216	Price on request
400 kW	137,823	Price on request
500 kW	170,255	Price on request
600 kW	191,880	Price on request
700 kW	212,880	Price on request
1000 kW	273,191	Price on request
1500 kW	367,948	Price on request
2000 kW	458,270	Price on request

The one-off connection fee applies when a contract is signed up to a year before construction of the main supply lines begins.

If the contract is signed after construction begins, the connection price is determined based on the costs incurred. However, at least the connection price and the additional flat fee of CHF 8,000 will be charged.

A connected load of at least 15 kW is required.

Base prices

Base heating price	CHF 151 per kW and year
Base cooling price	CHF 136 per kW and year

Prices for heating and cooling

Heating (from 75% renewable energy)	CHF 0.105 per kWh
Heating (from 100% renewable energy)	CHF 0.145 per kWh
Cooling	CHF 0.066 per kWh

All prices are index-linked and exclude VAT.
