Enge lake heat network
Pricing

06.2026 MM

Connection
Once you're connected to the lake heat network, we supply you with 100 per cent renewable energy for generating hot water and for heating.

Preparing for the connection
We lay a supply line into your properties, at a one-off cost and with no further obligation. We do not begin supplying energy until the time of your choosing. That could be when you replace your heating system, for instance.

Subsidies
Please remember it is your responsibility to apply for funding for your connection to the district heating network. Funding always goes to the owner(s) of the property.

Calculation example

Assumptions	
Connected load, heating	300 kW
Energy consumption per year	700,000 kWh
Number of homes	80
One-off connection fee	CHF 114,278
Base price	CHF 87,900 per year
Price for heating	CHF 59,500 per year
Total energy price (not including the one-off connection fee)	**CHF 0.211 per kWh**
Cost per home	CHF 1,848 per year CHF 154 per month
Proportion of renewable energy	100%

Outlook for the introduction of uniform district heating fees
By merging all public thermal grids with ewz, the aim is to create a uniform fee model – regardless of area and energy source. The basis for the new model is currently undergoing parliamentary discussion in the City Parliament. As a result, the fees for this supply area could tend to be lower in the future than they are today. Once the fees have been set (expected to apply from 2029), you will be notified in good time and can decide whether you would like to switch to the new fee model.

Connection fees

Connected load	Connection fee Heating in CHF
<50 kW	Price on request
50 kW	43,913
75 kW	52,673
100 kW	60,698
150 kW	75,428
200 kW	89,045
250 kW	101,928
300 kW	114,278
350 kW	126,216
400 kW	137,823
500 kW	170,255
600 kW	191,880
700 kW	212,880
1,000 kW	273,191

The one-off connection fee applies when a contract is signed up to a year before construction of the main supply lines begins.

If the contract is signed less than a year before construction begins, an additional flat fee of CHF 8,000 is charged.
If the contract is signed after construction begins, the connection price is determined based on the costs incurred. However, at least the connection price and the additional flat fee of CHF 8,000 will be charged.

A connected load of at least 15 kW is required.

Base prices

Base price for heating	CHF 293 per kW per year

Price for heating

Heating (from 100% renewable energy)	CHF 0.085 per kWh

All prices are index-linked and exclude VAT.
